------------	--------

There has been but a few fires the past year, and none of them bad ones, mostly grass and chimney fires. Consequently the department shows quite an unexpended balance. We recommend an appropriation of \$650.00 the same as last year, as we will have to have new hose and other equipment to put the Department in proper shape. We also wish to

impress upon the minds of the voters, our earnest conviction of the need of some kind of a light, pumping, motorized, combination truck for protection of property outside of the hydrant service. I wish to express my appreciation and thanks to the members of the Vinalhaven Fire Department who so often answer the call of fire duty at a sacrifice to their own time, desires, and expense.

Respectfully,

G. C. PEASLEE, Chief

The Road Commissioner and Selectmen, with the permission of the State Highway Commission, deemed it advisable to have this work done at this time, as it would be less liable to interfere with traffic and have the way clear for the State Aid Road for 1929.

There is an unexpended balance in the hands of the State Treasurer of \$838.38 which will be available for this account this year.

The uncollected taxes show large this year, for the reason we instructed the Tax Collector not to advertise the property, but to start suit for the payment of taxes, eight months after commitment. This means that the taxes will have to be paid. There are no tax deeds this year.

Report of Supt. of Schools

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my eleventh annual report of the condition and progress of the Vinalhaven schools for the fiscal year ending Feb. 1, 1929.

At the close of the spring term, Miss Thelma E. Mullen resigned her position as teacher of Grades three and four in the White School. Miss Ruth M. Billings was transferred to fill the vacancy in the White School and Miss Marion J. Lyford was elected to teach the Sub Primary Grade in the Firemen's Hall. These were the only changes in the teaching force for the year. A school system depends more upon the tenure of its good teachers for progress and efficiency than upon any other contributing factor.

The school census for 1928 was 468. The total enrollment was 347. The enrollment by grades was as follows: Sub Primary, 32; Grade One, 29; Grade Two, 27; Grade Three 31; Grade Four, 42; Grade Five, 22; Grade Six, 35; Grade Seven, 29; Grade Eight, 20; Freshmen, 23; Sophomores, 17; Juniors, 20; Seniors, 20. The aggregate attendance was 55,685, average attendance, 309.37; percentage of attendance, 89.16 per cent. Due to an epidemic of measles and scarlet fever, the attendance was about seven per cent lower than the preceding year. However, any rate above 85 per cent is considered good.

The graduating class of 1928 in the high school was the largest in the history of the school.

The sale of Red Cross Christmas Seals, which amounted to \$41.00 was conducted by Grades Five and Six in the Washington and Lincoln Schools. The Maine Public Health Association offered a book as a prize to the school selling the most stamps. This prize was won by the pupils of the Lincoln School.

During the summer vacation, the interior of the Washington school was completely decorated and a new case of maps was intalled in both of the upper grade rooms. The building now presents a very pleasing appearance.

The boilers in both the Washington and Lincoln Schools have caused considerable trouble during the past year and should receive attention before the beginning of another school year.

The problem of the White School still confronts us. Speaking in general terms, the building is as useful now as it has been for a number of years and may be serviceable for years to come; but its age, style of architecture and location do not warrant the expenditure of much money for repairs. The town could raise a certain sum of money each year to be set aside as a permanent school building fund for use when absolute necessity should require. This suggestion may be a possible way of solving the problem.

The school accounts are in very good condition this year. With the exception of the Repairs Account there is an unexpended balance in every department. The overdraft in the Repairs Account has been reduced by \$68.81 since last year.

In closing, I wish to thank all those who have assisted me in my administrative duties.

Respectfully submitted

E. A. SMALLEY
Superintendent of Schools

While we do not make a recommendation as to the exact amount that shall be appropriated for the Fire Dept. for the ensuing year, we do recommend the purchase of five hundred feet of new hose which is very badly needed, and that the Engine House be painted. Consequently we recommend that the cost of new hose, and painting the building be appropriated in excess of the usual appropriation of \$650.00.

------------------------------	------------

Mrs. James Mutch Tax Deed paid since auditing.

The Lane-Libby Burchell Fisheries Co., Inc., have paid to the Town Treasurer, \$4,500.00 in the last two years, the amount agreed upon by a committee and the Selectmen at the time, on back Tax Deeds up to 1927. This amount has been received over and above the cost of collecting the same.

Also they have paid the 1927 Tax Deed.

The Selectmen, as per decree of W. H. Pattangall, Presiding Justice made a settlement with the Bodwell Granite Co. for the sum of \$1,100.00 on Tax Deeds and unpaid taxes.

The Selectmen also made a settlement with R. F. Spear to the year 1929 for the sum of \$83.75.

In addition to the above the following Tax Deeds have been redeemed:

C. L. BOMAN
DAVID DUNCAN
H. H. VINAL
Municipal Officers of Vinalhaven

Report of Supt. of Schools

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my twelfth annual report of the condition and progress of Vinalhaven schools for the fiscal year ending Feb. 1, 1930.

At the close of the spring term, Cora L. Vinal resigned her position as teacher of Grades seven and eight in the Lincoln School to accept a position in the South Portland schools. Miss Helen E. Carlon resigned her position as teacher of Grades three and four in the Washington School to accept a position outside the state. Miss Bernice Hall resigned her position as teacher of the Calderwood's Neck School to take a course in commercial subjects. Miss Louise A. Hardison, a graduate of the Gorham State Normal School, was elected to fill the vacancy in the Lincoln School; Miss Gertrude F. Vinal, a graduate of Gorham State Normal School, was elected to fill the vacancy in the Washington School and Miss Flavilla S. Arey, a graduate of the Farmington State Normal School, was elected to succeed Miss Hall in the Calderwood's Neck School.

The school census for 1929 was 485. The total enrollment was 363. The enrollment by grades was as follows: Sub Primary, 41; Grade One, 29; Grade Two, 38; Grade Three, 29; Grade Four, 32; Grade Five, 41; Grade Six, 24; Grade Seven, 30; Grade Eight, 25; Freshmen, 20; Sophomores, 21; Juniors,

15; Seniors, 18. The aggregate attendance was 56,-851; average attendance, 314.59; percentage of attendance, 86.66 per cent. This rate is somewhat lower than last year on account of an epidemic.

The usual sale of Red Cross Christmas Seals was conducted by Grades Three and Four in the Washington and White Schools and amounted to \$38.42.

Miss Lawrence, the Public Health nurse, examined the children in the Washington and Lincoln Schools during the fall term. The children in the other schools will be examined later in the year. Miss Lawrence reported 221 children examined and 284 defects discovered. Predominant among these, were diseased teeth and tonsils.

The state examination for high school entrance was conducted the latter part of the spring term. The three highest ranks were as follows: Althea Small, 75.36 per cent; Ellen Georgeson, 74.71 per cent; Erdine Calderwood, 74.29 per cent. The class average was 66.48 per cent. The general average for the state, based on a distribution of 940 papers, was 61.48 per cent.

During the summer, the toilet at the White School was repaired and connected with the school building. This improved the sanitary conditions somewhat but is by no means an ideal arrangement. The Granite Island School bus was painted during the summer and the interior of the Calderwood's Neck School building was painted and papered. The room now presents a very attractive appearance.

The school building at Crockett's River was sold and the proceeds added to the Permanent School Building Fund.

This year the heater in the White School will have

to be re-built, as water in the basement has again rusted out the fire-box. The exterior of the Lincoln School building is in poor condition and should be painted this year and the Arey's Harbor school bus should have a coat of paint.

The school accounts are in very good condition this year. With the exception of the Repairs Account, there is a substantial balance in every department. The overdraft in the Repairs Account has been reduced by \$132.65 since last year.

In closing, I wish to thank all who have assisted me in my administrative duties.

Respectfully submitted,

E. A. SMALLEY,

Superintendent of Schools

For the last few years the Fire Department has shown an unexpended balance, but this year it shows quite an overdraft. The building has been put in first class condition at an expense of \$430.47. It was thought at first that the building only needed paint, but on careful examination it was found to need shingles, chimney repaired and part of a new sill. The building should be good for quite a few years without much expense. New hose have been purchased, and we have had two large fires and quite a few smaller ones. The Fire Department has been re-organized and the boys are taking a great interest. I recommend that some kind of a chemical engine be purchased to take care of fires in the outlying districts. I think the usual appropriation of \$650.00 will take care of the department, not to include the chemical engine.

Municipal Officers of Vinalhaven

AUDITOR'S REPORT

.. To the tax payers of Vinalhaven:

I hereby certify that I have examined the financial accounts of the Selectmen and Treasurer of the Town of Vinalhaven, for the fiscal year ending February 15th, 1931, and find them correct and supported by the proper vouchers. The cash balance \$15,700.16 is deposited with the Security Trust Co. The Collectors books have been audited and approved by the Selectmen.

Respectfully

B. K. SMITH

Auditor

Report of Supt. of Schools

Vinalhaven, Me., Feb. 21, 1931.

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my thirteenth annual report of the condition and progress of Vinalhaven schools for the fiscal year ending Feb. 1, 1931.

The past year has been unusually free from troublesome epidemics which always interrupt school attendance and, correspondingly, retards educational progress. We have had a fine corps of teachers and the pupils have made excellent progress under their tuition.

At the beginning of the winter term 1930, Mrs. Sada C. Robbins retired from the teaching profession after more than forty-three years of successful service, forty of which were given to her own town of Vinalhaven and twenty-one of these years in the same room. The school department greatly regret the loss of her services and wish to publicly express the lasting gratitude they feel for the many years of inspired teaching she has given the community.

At the end of the winter term Marion Lyford Bogren resigned her position as teacher of the Sub-primary grade and Miss Lucy C. Ryan, a graduate of Castine Normal school, was engaged to finish the year. During the summer Miss Louise A. Hardison resigned as teacher of grades Seven and Eight in the

Lincoln School to accept a position in the public schools of East Orange, New Jersey. Miss Helen L. Orcutt was elected to succeed Miss Hardison, but due to ill health, was not able to begin her duties until the beginning of the winter term. Mrs. Charlotte O. Fifield substituted for Miss Orcutt during the fall term in a very able and efficient manner.

Miss Flavilla S. Arey resigned her position in the Calderwood's Neck School to accept a teaching position in Port Jervis, New York. Miss Dorothy L. Thomas was elected to fill the vacancy in the Neck School. Mrs. Lida Greenlaw Ames resigned her position as teacher of grades Five and Six in the Lincoln School, Mrs. Marion B. Headley was transferred from a similar position in the Washington School to fill this vacancy and Miss Ethel G. Young was elected to succeed Mrs. Hearley in the Washington School. Miss Dorothy M. Cassie was elected as teacher of the Sub-primary grade.

At the beginning of the fall term the work in public school music was resumed after a lapse of several years. The New Educational Music series, which contains a very fine course in music appreciation, is used as a text. Miss Dorothy M. Stone of North Haven was elected as supervisor of music. She has had excellent musical training and the girls and boys should make excellent progress under her direction.

The school census of 1930 was 503. The total enrollment was 367. The enrollment by grades was as follows: Sub-primary, 48; Grade One, 34; Grade Two, 24; Grade Three, 37; Grade Four, 30; Grade Five, 32; Grade Six, 37; Grade Seven, 25; Grade Eight, 30; Freshmen, 22; Sophomores, 17; Juniors, 18; Seniors, 13. The aggregate attendance was 58,

283.5; average attendance 323.79; percentage of attendance, 64.37 per cent. The annual cost per pupil for general school maintenance was \$61.63.

In the state examination for high school entrance conducted during the latter part of May, Lucille Morton obtained the highest average rank for Vinalhaven and for the district, 86.29 per cent. The average rank for the town was 64.58 per cent. The average rank for the district was 70.63 per cent.

Toward the close of the spring term the Lincoln school building was struck by lightning, demolishing the chimney and doing considerable inside damage. Fortunately this happened in the evening when the building was vacant and consequently no one was hurt. The insurance company repaired the damage in full.

During the summer the heating plant in the White School was re-built. The boilers in both the Lincoln and Washington schools are old and in poor condition. They should be examined by an expert and either thoroughly repaired or replaced. We lose a lot of time during the year because of boiler trouble in both schools. The average cost per day to operate each of these schools is \$35.00. During the past year it has been necessary to close one school or the other on eight different days for boiler repairs making an approximate loss in time to the value of \$280.00 for which we get no benefit whatever. For the past two years we have employed an electric welder to patch the boilers. Last summer a small welding job on the boiler in the Washington School cost \$185.00. The loss of time and cost of up-keep would soon amount to the price of new equipment.

The school accounts are in good condition this year. We have a small unexpended balance in the Common School, High School and Text Book Accounts. The Supply Account is just balanced and the Repairs Account is overdrawn \$177.88. It was planned to paint the Lincoln school building last summer but because of the unexpected cost of repairing the heating plants sufficient funds were not available.

We are informed that there will be a reduction in the amount of state aid available for distribution next year. For this reason and because of the reduced balances in the various accounts, it will be necessary to raise larger appropriations for all school departments.

In closing, I wish to thank all those who have assisted me in my administrative duties.

Respectfully submitted

E. A. SMALLEY
Superintendent of Schools

AUDITOR'S REPORT

To the tax payers of Vinalhaven:

I hereby certify that I have examined the financial accounts of the Selectmen and Treasurer of the Town of Vinalhaven, for the fiscal year ending February 12th, 1932, and find them correct and supported by the proper vouchers. The cash balance \$9,383.77 is deposited with the Security Trust Co. The Collectors books have been audited and approved by the Selectmen.

Respectfully,

B. K. SMITH

Auditor

Report of Supt. of Schools

To the Superintending School Committee and Citizens of Vinalhaven:

I herewith submit for your consideration my fourteenth annual report of the condition and progress of the Vinalhaven schools for the fiscal year ending Feb. 1, 1932.

Early in the year, Miss Cora B. Crabtree retired from the teaching profession after completing forty-three years of active service, the last twelve of which were in the primary grades of the White School. Teaching first in Vinalhaven and North Haven and later in other towns of Maine and Massachusetts, she soon acquired and always maintained the well deserved reputation of being among the best teachers in the profession in her chosen line of work, which was with the primary grades. The school department wish to express their deep appreciation of the years of valued service which she has given to the community.

The only change in our teaching force this year was the election of M. Louise Libby to fill the position made vacant by the resignation of Miss Cora B. Crabtree. We have had no handicaps to interfere with school progress and have had a very successful school year.

The school census for 1931 was 506. The total enrollment was 376. The enrollment by grades was as follows: Sub-primary, 45; Grade One 43; Grade

Two, 31; Grade Three, 23; Grade Four, 39; Grade Five, 31; Grade Six, 33; Grade Seven, 32; Grade Eight, 23; Freshmen, 29; Sophomores, 19; Juniors, 13; Seniors, 13. The aggregate attendance was 48,178.50; average attendance, 349.91; percentage of attendance, 93.06 per cent, a gain of 28.69 per cent over last year.

The attendance record for the fall term ending Dec. 18, 1931, was of such high order that it should not be permitted to pass without mention. The following is the result in terms of percentage: High School, 99.17 per cent; Washington School, (Grades 7 and 8), 98.60 per cent; White School, (Grades 3 and 4), 98.10 per cent; Washington School, (Grades 5 and 6), 98.08 per cent; Washington School, (Grades 3 and 4), 97.70; Lincoln School, (Grades 5 and 6), 96.22 per cent; Washington School, (Grades 1 and 2), 96.20 per cent; Lincoln School, (Grades 7 and 8), 95.61 per cent; Main Street School, (Grade Sub-Primary), 94.61 per cent; White School, (Grades 1 and 2), 94.60 per cent; Calderwood's Neck School, 94.00 per cent. The foregoing record speaks in the highest terms of two things most valuable in education, health and school interest.

In the state examination for high school entrance, conducted in May 1931, Elsie Holmquist secured the highest average rank for Vinalhaven and also the district, 72.85 per cent. The average rank for the town was 52.61 per cent. The average rank for the district was 53.03 per cent.

The annual cost per pupil for elementary school maintenance was \$43.22; for secondary school

maintenance \$83.19. The tuition rate in most secondary schools in the state ranges from \$100 to \$125.

Business conditions indicate that a reduction in our expenses is necessary this year, but the greatest effort should be made to maintain the schools at their present standard if possible. Any attempt to reduce their efficiency, although it will ease our tax burden slightly, will result in a loss to the children which, in future years, they will find it difficult to overcome. Vinalhaven schools have always given their students so good an educational foundation that they have been able to go into the outside world and establish themselves advantageously in competition with others whose training has perhaps been more extensive. For example, consider the record of our high school students in the Maine colleges. Last year one of the largest high schools in the state sent a class of 114 freshmen to the various Maine colleges. These students won 55 honors which is less than one half honor per student. Vinalhaven high school sent two freshmen the same year who won seven honors, an average of three and one half honors per student. According to the report of the Maine Secondary Schools, Vinalhaven High School ranks third among 149 secondary schools in the percentage of honors won by its students certified for college last year.

By vote of the town it became necessary to move the Sub-Primary School from the Firemen's Hall. New quarters were located in the Carver Block, which makes a satisfactory place under the circumstances.

During the summer the Lincoln Building was painted at an approximate cost of \$300. The heating plant in the Washington Building was inspected and pronounced beyond repair. The Vinalhaven Hardware Co., acting under the recommendation of an expert, installed a sectional boiler at an approximate cost of \$750. The expert informed us that more radiation in the building would be necessary before the heating plant could attain its maximum of efficiency. As the account was already overdrawn, it was decided that the matter of installing additional radiation should be temporarily postponed.

The boiler in the Lincoln Building is in very poor condition. The Washington Building needs a coat of paint.

Strict economy has been practiced in the purchase of text books and supplies, consequently I believe that the unexpended balances in these departments are sufficient to warrant smaller appropriations this year in these accounts.

If further reductions must be made they should be in the matter of repairs and equipment rather than in a form that will directly affect the work of teachers or pupils.

The school accounts are in very good condition. There is an unexpended balance in all accounts except repairs where there is a deficit of \$377.29.

In conclusion I wish to thank all those who have assisted me in the discharge of my administrative duties.

Respectfully submitted,

E. A. SMALLEY, Supt. of Schools

During the year we have purchased 400 feet of new hose. At present we have 1500 feet of good fire hose and do not intend to buy any new hose during the coming year. We have installed a fire signal at the Power House, and to make the present signal suitable for use it will be necessary to add another unit. In order to take care of this it is recommended that the appropriation for the Fire Department be the same as last year.

Respectfully submitted,

G. C. PEASLEE, Chief Fire Dept.

Municipal Officers of Vinalhaven

To the tax payers of Vinalhaven:

I hereby certify that I have examined the financial accounts of the Selectmen, Treasurer and Excise Tax Collector of the Town of Vinalhaven for the fiscal year ending February 15th, 1933, and find them correct and supported by the proper vouchers. The cash balance \$5,740.85 is deposited with the Security Trust Co. The tax collector's books have been audited and approved by the Selectmen.

Respectfully submitted,

JOHN A. LOW

Auditor

Report of Supt. of Schools

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my fifteenth annual report of the condition and progress of the Vinalhaven Schools for the fiscal year ending Feb. 1, 1933.

At the last annual town meeting it was voted to discontinue the Main Street School to take effect at the beginning of the current school year. This necessitated housing the Sub Primary Grade with Grades One and Two, thus giving the primary teachers three grades each with an enrollment of nearly fifty pupils in each room. This arrangement makes it impossible for the teachers to give the individual attention that children in the primary grades should have. My observation to date shows that Grade Two has been least retarded, Grade One somewhat more and the Sub Primary has been hardest hit. Three years will be required to determine the full extent of retardation.

By vote of the town, the Granite Island School was re-opened at the beginning of the school year. We consider ourselves fortunate in securing the services of Miss Flavilla S. Arey for this school. Miss Arey has had experience in both rural and urban schools and the children are making rapid progress under her instruction.

Due to an epidemic of whooping cough which

broke out during the spring term, the elementary schools were closed two weeks earlier than scheduled. For lack of sufficient funds, no attempt was made to make up the time thus lost.

Last summer the committee voted to motorize the Eastern Transportation Route. The project was submitted to bid and Mr. R. H. Webster, being the lowest bidder, was awarded the contract. The results have been excellent. The children are now riding more comfortably and spend less time on the road. The expense is about two-thirds of the original cost.

During the latter part of the fall term, Mrs. Ethel Y. Doughty resigned her position as teacher of Grades Five and Six in the Washington School and Miss Dorothy L. Thomas was transferred from the Calderwood School to fill the vacancy. Miss Louise Libby was elected to succeed Miss Thomas in the Calderwood school.

The school census for 1932 was 503. The total enrollment was 377. The enrollment by grades was as follows: Sub Primary, 46; Grade One, 38; Grade Two, 41; Grade Three, 24; Grade Four, 26; Grade Five, 31; Grade Six, 31; Grade Seven, 29; Grade Eight, 31; Freshmen, 20; Sophmores, 25; Juniors, 19; Seniors 13. The aggregate attendance was 59,670; average attendance, 346.6; percentage of attendance, 91.94 per cent, a loss of 1.12 per cent in comparison with that of the preceding year. The annual cost per pupil for general school maintenance was \$52.28. The corresponding cost for Maine was \$65.29; for the United States, \$90.38.

Except for re-conditioning the Granite Island school buildings and the installation of a new boiler

in the High School building, the expenditure of the repair fund was confined to the incidental minor repairs.

In sympathy with the existing business conditions, the practice of strict economy has prevailed in every department. For this reason the unexpended balances in all accounts, except the repairs account, warrant even smaller appropriations for 1933 than were raised in 1932. Although we anticipate a twenty per cent reduction in the State School fund for the next biennium, we are submitting a budget for 1933 that is sixteen per cent lower than that of 1932. The 1932 budget was seventeen per cent lower than that of 1931. In other words, our school budget has been reduced more than thirty per cent in two years. What other department has done as much towards relieving the tax burden?

In spite of these reductions we plan to maintain our present standard of efficiency. The only handicap thrust upon us was the elimination of the sub Primary unit. This will continue to be an eleven percent discount on our efficiency until its restoration.

The following extract quoted from the American Education Week Handbook seems worthy of the consideration of every citizen: "The money spent for running the schools flows directly into the channels of other activities. Supporting the schools is supporting the grocer, the tailor, the manufacturer, the builder. Every increase in school support is a boost to general prosperity."

I would also like to bring to your attention these words of our State Commissioner of Education, Dr.

Bertram E. Packard, who, commenting on the tendency to reduce school appropriations, very fittingly says:

“In order of importance to be classified first among the municipal activities is that of the care and support of those who are destitute. It is the consensus of opinion that the second necessary item in municipal expenditures should be the provision for the suitable educational advantages of our children. The failure or success of the character of our future citizenship depends in large measure upon the educational opportunities which we offer to the boys and girls in our public schools. Unquestionably the third essential item is for the protection of life and property. When we have adequately provided for these three essential classes of municipal activities what more is essential in times of financial stress?

Is it not about time for thoughtful citizens to consider this question reasonably and for all those interested that public education should be maintained at a reasonable standard of efficiency, to insist that further reductions in educational appropriations cease until such time as those responsible for the appropriations for other municipal activities at least cooperate toward effective reductions in tax rates? This is a serious question and affects the future of all the boys and girls in our public schools.”

In conclusion, I wish to thank all those who have assisted me in the discharge of my administrative duties.

Respectfully submitted,

E. A. SMALLEY
Superintendent of Schools

Municipal Officers of Vinalhaven

Auditor's Report

To the taxpayers of Vinalhaven:

I hereby certify that I have examined the financial accounts of the Selectmen, Excise Tax Collector and the Treasurer for the town of Vinalhaven for the fiscal year ending February 16, 1934, and find them correct and supported by the proper vouchers. The Treasurer carries a cash balance of \$1,534.47, this amount being made up of an actual cash balance of \$1,534.47, this amount being made up of an actual cash balance \$996.15 deposited in the Knox County Trust Company and a balance of \$538.32 in the closed Security Trust Company.

The Tax Collector's books have been audited and approved by the Selectmen.

JOHN A. LOW

Auditor

Report of Supt. of Schools

Citizens of Vinalhaven:

I herewith submit for your consideration my sixteenth annual report of the condition and progress of the Vinalhaven schools for the fiscal year ending Feb. 1, 1934.

With the exception of the unusually cold weather, which has resulted in a considerable loss of time this winter, the past year, generally speaking, has been free from detriments that tend to retard the natural progress of the school system. The keynote to normal educational development of a student body is the harmonious co-operation of parent, teacher and pupil. Without this no school system can be completely successful, and the healthy development of the child necessarily must suffer. However, we consider that we have an efficient school system in spite of the handicaps and curtailments with which we have had to contend in recent years.

When school opened in September there was such an unequal distribution of pupils in Grades Five and Six in the Washington and Lincoln schools that it was decided to transfer all Sixth Grade pupils to the Lincoln School and all Fifth Graders to the Washington School. The lower grades were then moved up accordingly to fill the vacancies thus made. This relieved the congestion in the Primary Department and gave the primary children more actual school time, since the primary teachers were relieved of the extra grade.

The school census for 1933 was 483. The total enrollment was 376. The enrollment by grades was as follows: Sub Primary, 34; Grade One, 41; Grade Two, 30; Grade Three, 32; Grade Four, 31; Grade Five, 24; Grade Six, 29; Grade Seven, 31; Grade Eight, 26; Freshmen, 30; Sophomores, 19; Juniors, 25; Seniors, 18. The aggregate attendance was 63,732; average attendance, 353.06; percentage of attendance 93.9 per cent, a gain of 1.96 per cent over the preceding year. The average annual cost per pupil for general school maintenance was \$42.30, a reduction of \$9.98 or 19.9 per cent in comparison with the per pupil rate of a year ago. This is one of the lowest rates in the state for a school system of this type.

There has been no change in the teaching force this year.

Considering the weather we have had this winter, it seems remarkable that the school bus has not lost a trip on account of storms.

In May, the High School was inspected by Mr. Harrison C. Lyseth, State Agent for Secondary Education. In his report to the State Commissioner of Education, Mr. Lyseth said in part, "The Vinalhaven High School merits the class A rating and undoubtedly is doing satisfactory work as a high school. The program of studies is satisfactory and the school offers a broader curriculum than the average school of its size. It fulfills the modern ideas of secondary education by preparing for life activities in its General Course as well as for college in its College Preparatory Course. The choice of text books is excellent and laboratory and library facilities are

satisfactory. The teaching staff is well equipped for its work. Discipline is excellent. The general tone of the school is most satisfactory."

At the last annual town meeting, a special appropriation of \$400.00 was raised to repair the White School. This fund was used in wall-boarding, flooring, and repairing the front end of the building. As a C. W. A. project the interior of this building was partially decorated.

By means of the C. W. A., the road leading to the Lincoln School was put in good condition and some grading was done on the grounds. If the C. W. A., program is continued, consideration should be given to the need of a good basement under the White School. The belfry on the Washington School should be removed. The vibration of this structure in winds causes a leak in the roof which can never be permanently repaired so long as it remains. The Washington and White buildings should be painted outside and the interior of the Washington and Lincoln buildings should also be decorated. The Granite Island school house needs shingling. These repairs need not all be done immediately, but it is well to undertake a part each year in order to distribute the cost over a period of years.

Our recommendations for the past fiscal year were based on the assumption that our state subsidy would be twenty per cent less than that of the previous year. Instead we received twenty-five per cent less. Therefore, there is an overdraft of \$46.85 in the state subsidized accounts.

In order to apply the C. W. A. funds to the White School project it became necessary to purchase a

part of the material from the appropriation for repairs. Consequently the overdraft in the Repairs Account is larger than last year.

During the past year the strictest economy has been observed in every instance to keep the operating expense of the department within the limit of the appropriations. Any further curtailment must of necessity be seriously detrimental to the educational opportunities of the children. We urge the general public to co-operate with their officials in a whole-hearted manner and boost their educational institutions. Elementary and high school training is all the equipment we can give the children as a preparation for useful citizenship, and it should not be given grudgingly.

In closing, I wish to thank all those who have co-operated with me in the discharge of my supervisory duties.

Respectfully submitted,

E. A. SMALLEY

Report of Supt. of Schools

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my seventeenth annual report of the condition and progress of the Vinalhaven schools for the fiscal year ending Feb. 15, 1935.

The school census for 1934 was 481. The total enrollment was 374. The enrollment by grades was as follows: Sub Primary, 25; Grade One, 31; Grade Two, 39; Grade Three, 32; Grade Four, 37; Grade Five, 24; Grade Six, 24; Grade Seven, 31; Grade Eight, 26; Freshmen, 22; Sophomores, 29; Juniors, 19; Seniors, 22. The aggregate attendance was 62,684; average attendance, 348.24; percentage of attendance, 93.11%, a gain of .02% over the preceding year. The annual cost per pupil in the elementary grades was \$37.23, while the per capita cost in the secondary grades was \$52.35.

The same crowded condition prevails in the middle grades as in 1933-34 and it has not seemed advisable to change the grade distribution.

The repair of school buildings was taken up as one of the C. W. A. projects. The C. W. A. furnished the labor and the town furnished the material. As a result, the school buildings are in excellent condition. Several improvements were made which otherwise might have remained undone for several years. The most important of these was the drainage of the

White School basement and the removal of the belfry on the Washington School. Other items included outside painting of the Washington and White schools, completion of the interior decoration of the White School and interior decoration of the Washington and Lincoln buildings. At the Granite Island School, one side of the roof was shingled, the building painted and the interior re-decorated. The old stove was replaced by the Vecto heater formerly used in the Firemen's Hall. In carrying out this project the appropriation for repairs was considerably overdrawn, but the results obtained seemed to justify the overdraft.

The common school, text book and supplies accounts are also overdrawn. Janitors were kept at work during the time that schools were closed for repairs under the C. W. A. project and this fact explains the increase in the cost of janitor service. The severe, cold weather has caused a substantial increase in the cost of fuel.

When funds were more easily raised, we were well supplied with text books; but in the last three years we have endeavored to buy only such as were indispensable. This has proved to be a false economy for now, with increasing prices, we find that we must also make increasing purchases in order to maintain the same standards.

I wish to take this opportunity to urge all parents and friends to visit the schools as often as possible. Personal visitation is the only way of obtaining first hand knowledge of the methods of instruction, school management, and student progress, and will best serve to maintain our interest in the country's

greatest business—the education of its children.

In closing, I wish to thank all those who have assisted me in the discharge of my supervisory duties.

Respectfully submitted,

E. A. SMALLEY

The buildings at the Town Farm are in need of much repair, painting inside and out and papering. I estimate that cost to be about \$400 00. At the close of the year there were 9 inmates, the average number for the year being 6. The inmates have cut 11 cords of wood this Fall and Winter.

Supt. Town Farm.

AUDITOR'S REPORT

To the Taxpayers of the Town of Vinalhaven:

I herewith certify that I have examined the accounts of the Treasurer, Selectmen and the Excise Tax Collector for the fiscal year ending February 15, 1936 and find them to be correct and are supported by the proper vouchers. The balance in the hands of the Treasurer at the close of the year's business is as per the Treasurer's report: \$4,081.78 and is deposited on checking account with the Knox County Trust Company. The books of the Tax Collector have been examined and approved by the Selectmen.

Respectfully submitted,

C. MESERVEY F. AMES,
Auditor.

Report of Supt. of Schools

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my eighteenth annual report of the condition and progress of the Vinalhaven schools for the fiscal year ending Feb. 15, 1936.

The school census for 1935 was 475. The total enrollment was 359. The enrollment by grades was as follows: Sub-primary, 33; Grade One, 29; Grade Two, 30; Grade Three, 37; Grade Four, 30; Grade Five, 37; Grade Six, 22; Grade Seven, 25; Grade Eight, 31; Freshmen, 21; Sophomores, 21; Juniors, 26; Seniors, 17. The aggregate attendance was 60,365; average attendance, 355.36; percentage of attendance, 93.14%.

The per capita cost of school maintenance in the elementary grades for the past year was \$36.91. The average cost per pupil in the secondary grades was \$58.64. According to the Maine State School Bulletin, not many towns in the state are maintaining schools of standard grade at a per capita cost as low as ours. We are fortunate in this respect and should appreciate the faithful work accomplished by our loyal and efficient group of teachers.

We have had an obstinate case of truancy this year which we have been obliged to tolerate because of the child's age and the constant expense that would be involved. Otherwise the attendance has

been excellent. When the proper time arrives it is planned to prosecute the truancy case.

Except for wiring the White School Building and the customary incidentals, nothing has been done this year in the way of repairs and improvements on the school buildings. The High School building and the Calderwood School building need painting. One of these, at least, should be painted this year.

The school accounts are in much better condition than they were a year ago. The Common School account, High School account and Text Book account are just balanced. There is an overdraft in the Supplies account amounting to \$88.26. Last year the overdraft in the Repairs account was \$951.01. This year the deficit in that department has been reduced \$414.94, so that, at the present time the overdraft in the Repairs account is \$544.07.

In closing, I wish to thank all those who have co-operated with me in the discharge of my administrative duties.

Respectfully submitted,

E. A. SMALLEY,

Supt. of Schools.

Municipal Officers of Vinalhaven

Auditor's Report

Vinalhaven, Maine, February 11, 1937

To the Taxpayers of the Town of Vinalhaven:

I herewith certify that I have examined the financial accounts of the Selectmen and Treasurer of this town for the fiscal year ending February 6, 1937. I find all accounts in order, all bills paid by check by the Treasurer and supported by proper vouchers in the files of the Selectmen. The cash balance of \$1,593.01 in the hands of the Treasurer at the close of the books is deposited on checking account with the Knox County Trust Company. The books of the Tax Collector have been examined by the Selectmen and have been approved. The books of the Excise Tax Collector also have been examined and approved.

Respectfully submitted

C. MESERVEY F. AMES

Auditor

Report of Superintendent of Schools

To the Superintending School Committee and
Citizens of Vinalhaven:

I herewith submit for your consideration my nineteenth annual report of the condition and progress of the Vinalhaven schools for the fiscal year, ending February 6, 1937.

The school census for 1936 was 466. The total enrollment was 360. The enrollment by grades was as follows: Sub-primary, 23; Grade One, 35; Grade Two, 28; Grade Three, 30; Grade Four, 38; Grade Five, 33; Grade Six, 37; Grade Seven, 22; Grade Eight, 25; Freshmen, 27; Sophomores, 19; Juniors, 18; Seniors, 25.

The number of pupils completing last year of the elementary school course was 23. The number of pupils graduating from Senior High School was 25.

The aggregate attendance was 60,442.10; average attendance, 341.33; percentage of attendance, 94.81 per cent.

The per capita cost of school maintenance in the elementary grades for the past year was \$37.03. The average cost per pupil in the secondary grades was \$50.75.

There was a widespread epidemic of mumps in the schools during the fall term, which seriously hindered the advancement of pupils for the first half of the school year.

Minor repairs, which included work on the foundation of the White school building, repairing a

troublesome leak in the roof of the Washington building and repairs on the boilers and plumbing, together with the customary incidental expenses, used all of the appropriation for repairs. The Lincoln school building and the Calderwood building are in need of painting and the casing of the boiler at the White school building must be replaced. We are asking for an increase in the Repairs Account to take care of these items.

With the exception of the Text books account and the Repairs Account, the accounts are just balanced. After transferring \$32.28 to the supplies, to balance that account, there is a balance of \$91.53 in the text book account. In the repairs account there is an overdraft of \$552.08, an increase of \$8.01 over the overdraft of 1936.

The Commissioner of Education points out that increases in the cost of text books, supplies and other materials will make it advisable to provide increased appropriations in all school accounts this year. We are asking for small increases in the Common Schools account, High School account, Supplies and Repairs. The balance in the Text book account will probably take care of increases in that department.

In closing, I would like to express my very deep appreciation of the consideration shown to me this year, and to sincerely thank the Superintending School Committee, Teachers and Citizens for their valued assistance and co-operation in the discharge of my administrative duties.

Respectfully submitted,

E. A. SMALLEY

The Trustees and Librarian extend thanks to all who have so generously contributed books and magazines during the past year.

There will be Fire Insurance Premiums of about \$60 coming due next year, but the Trustees think they can pay this without any additional appropriation and recommend raising the required amount of \$500.
